

Iqbal Koudhaï graduated from ENSTA Paris, a major engineering school, with a specialization in financial mathematics in partnership with ENSAE Paris since 2019. He joined Hugau Gestion first as an intern in 2019 in the risk department under the supervision of the former risk director before joining the team as a statistician and computer engineer. After obtaining his AMF certification in 2021, he became co-head of the company's risk management before being appointed director of risk and statistical, actuarial and IT studies in January 2023.
